

SUMMARY

designing, developing, and delivering high-quality, user-centric mobile applications. Proficient in Kotlin, Java, and the Android SDK, with a strong focus on performance optimization, clean architecture, and modern Android development practices. Experienced in Firebase, AWS, and backend integration with a proven track record of taking projects from planning to production. Adept at collaborating in dynamic, fast-paced environments to drive innovation and deliver exceptional mobile experiences.

EXPERIENCE

12/2024 - Present	<div>Senior Android Developer</div> <div>Bnkhub Finserv Private Limited ↗</div> <ul style="list-style-type: none"><li>Developed and delivered multiple Android applications for both internal use and external clients – managing the full lifecycle from planning and architecture to deployment.</li><li>Optimized app performance and security by migrating data storage from SharedPreferences to DataStore, aligning with modern Android development guidelines.</li><li>Integrated Firebase services (Authentication, Firestore, Cloud Messaging, and Storage) for real-time data sync, notifications, and offline support.</li><li>Built scalable backend services using Node.js and TypeScript, ensuring robust API design and secure authentication mechanisms (JWT-based).</li><li>Implemented cloud infrastructure and deployment pipelines on AWS (EC2, S3, CloudFront, and Load Balancer) for hosting APIs and apps.</li><li>Developed web-based Admin Panels and Payment Screens using ReactJS, integrated with backend APIs for analytics, management, and reporting.</li><li>Collaborated cross-functionally with teams to analyze requirements, manage tasks, and ensure timely delivery with high code quality.</li></ul>
05/2023 - 12/2024	<div>Android Developer</div> <div>Aceware Fintech Services pvt. Ltd ↗</div> <ul style="list-style-type: none"><li>Aceneobank App</li></ul> <div>Collaborate with cross-functional teams to define, design, and ship new features for merchants of agency banking providing services like Micro ATM, POS machine, AEPS, BillPayments, QR, Fastag payments and Direct Money Transfer. Collaborated with external data sources and APIs.</div> <ul style="list-style-type: none"><li>Ace Services App</li></ul> <div>Collaborated with external data sources and APIs which users can book a banking service and delivery boy will be at your doorstep. This project is in initial stage so only Cash Pickup and Money Transfer are the only services. User can track delivery boy.</div>
09/2022 - 04/2023	<div>Android Developer Internship</div> <div>Soften Technologies</div> <ul style="list-style-type: none"><li>Built android application alone, which is a chat application using the skills I have learned such as Firebase, Jsoup, Retrofit, and JSON.</li><li>Used Firebase firestore database and real-time database.</li><li>Used Firebase cloud push notification service for sending notifications to users.</li></ul>

EDUCATION

---

05/2019 - 08/2022	<b>Computer Science Engineering</b> Government Polytechnic College, Perumbavoor Diploma CGPA - 7.2
06/2017 - 03/2019	<b>Biology Science</b> Sree Narayana Higher Secondary School, Okkal Higher Secondary Education Percentage - 70%

CERTIFICATES

---

10/2021 - 11/2021	<b>Training on Python (DJango and AI)</b> Nestsoft Technologies
-------------------	--

SKILLS

---

Kotlin	Intermediate	TypeScript	Basic
Java	Advanced	GitHub Actions	Intermediate
Android Studio	Expert	REST	Advanced
Android SDK	Intermediate	OkHttp	Advanced
AWS	Intermediate	PostgreSQL	Intermediate
JSON	Advanced	Google APIs	Expert
NodeJs	Intermediate	Push Notification	Expert
ReactJS	Intermediate	Git	Advanced

LANGUAGES

---

Malayalam	Native	English	Fluent
Hindi	Intermediate
